

Layout 8: Public Space Interventions in Prattville Park- Chelsea, MA

I used Adobe Photoshop and stock images to visualize interventions in the park. The image on the left is what the park looked like in the early days of the pandemic when the National Guard was using it as a food distribution site. The image on the right visualizes what the park could look like with amenities such as a children's playground and a community fridge.

Skills demonstrated: Using a collaged perspective view to make an argument about an intervention
